Consultancy Work

WIP	Intelligent Transportation System Consulting
	Gave consulting, traffic study, and seminar for traffic and transport economics in a city with more
WIP	than one million population in the Philippines. Mall Inventory Optimization
VV 11	Performed Stochastic Inventory Control for a mall chain in the Philippines.
WIP	Banking Sector Business Intelligence
	Estimated several models regarding financial institutions, including Markov Chains and regression
2021/11	models. Population and Chattel Slavery Prevalence
,	Gave statistical consulting and performed analysis of population impact on chattel slavery prevelance,
2021/10	along with temporal-spatial effects. Illiquid Assets Pricing Model
2021/10	Implemented a Geometric Brownian Motion model in Python that estimated illiquid asset volatility
0001/10	and correlation with liquid asset, then performed price simulation using estimated results. Model came from Ang, Papanikolaou, and Westerfield (2014), and required applying Ito's Lemma to obtain a formula for use with Monte Carlo Integration. Said asset was cryptocurrency with token lockups, requiring illiquid asset analysis. Returns distribution also had fat-tailedness, requiring use of Laplacian Distribution in Monte Carlo. Model obtained 97% accuracy in backtesting.
2021/10	Forecasting Weekly Sales Volumes Transactional Data Implemented a Multilayer Perceptron for forecasting product sales volumes using transactional
2021/09	cashier data, and performed correlation analysis for first-differenced sales and pricing data. Discovered that sales for different product groups would rise by more than 180% for all groups but one, both target countries, and one target channel, and that two goods violated the Law of Demand. Prey Processing Bout Longitudinal Analysis
2021/00	Performed longitudinal data analysis on shark prey-processing behavior using standard econometric
0001/00	tools for time series and panel data.
2021/08	State Space Model using Kalman Filter for Macroeconomic Forecasting Performed a novel implementation for Kalman filter for credit and macroeconomic data using Python.
	This implementation was required for analysis of panel data with exogenous control variables with Kalman filtering.
2021/07	Bayesian Distance Clustering in R
2021/00	Implemented a Bayesian Distance Clustering algorithm in R. This implementation required novel code for Hamiltonian Monte Carlo with tensor objects.
2021/06	Traffic forecasting in Software Defined Networking using Deep Learning
2021/05	Performed classification analysis to forecast traffic flowing to Network Protocols. Classification Model for Shark Behavior
2021/00	Performed classification modeling on longitudinal data for shark behavior, with corrections for auto-
2021121	correlation and multicollinearity.
2021/04	Uncorrelated Capital Asset Pricing Estimation for Multiasset Portfolio
2020/10	Estimated a Capital Asset Pricing Model for a panel of assets with uncorrelated alpha and beta. Cafe Aghora Sales Consultancy
2020 / 10	Gave consultation for a data science team which analyzed optimal days for sales from Cafe Aghora in Bacolod City.
2020/10	Sta Rita Orphanage Data Engineering
	Gave consultation for a data science team which performed data engineering for Sta Rita Orphanage
2020/07	in Parañaque City. Alabel Municipal Hall Feasibility Study
,	Prepared a feasibility study on the new municipal hall of Alabel, Sarangani.
2020/05	Outlook on Feeds and Grain Market
2020/01	Prepared an outlook analysis on the domestic markets for feeds and grains. Hotel Feasibility Study
2020/01	Estimated projected profits using quantitative methods on visitor, revenue, and geospatial data. Employee Turnover Analysis
2020,01	Crafted a survey to record key variables and performed statistical analysis to determine which variables affected the probability of turnover.

2019/11 | Firm Profitability Analysis

Obtained company time-series data on employee productivity and performed market research to determine their effects on the company's profits.

Consultancy Roles

2021/11–Present

Film Industry Market Analysis, *Department of Trade and Industry* Consultancy for market analysis of the Film Industry.

WORKING PAPERS

EMPIRICAL

2022 / 02	Expansionary Credit, Easy Money, and Boom-bust Cycles, 1868-1970
MSR Working Paper Series	Analyzed long-run and causal effects of expansionary credit on American business cycles.
2021/05	Developing a Provincial Destination Choice Model of the Philip- pines
MSR Working Paper Series	Developed a model assigning weights to factors affecting domestic traveller choice of provincial destination in the Philippines.
2021/05	Historical Climate Factors and Rice Prices in the Philippines
MSR Working Paper Series	A paper analyzing how rice prices in the Philippines have responded to historical climate factors.

CASE STUDIES

Transportation

2019/03	Route Assignment for Travel between Metro Manila Central Business Districts
	Determined optimal route assignments for travelers between Makati, Ortigas, and Bonifacio Global
	City using linear programming methods.
2018/12	Mode Choice Analysis of New York City
	Undertook mode choice analysis of passenger behavior in New York City using 2017 data.
2018/08	Estimation of the Lane–Mile Elasticity of Metro Manila Traffic
	Estimated the magnitude of effect of road size and expansions on traffic in Metro Manila in the Philippines using linear regression methods.

Miscellaneous

2019/03

Is the Filipino Worker Ready for Industry 4.0? An Empirical Analysis

Performed classification analysis of factors predisposing the Filipino labor market to choices of occupation.

Courses Taught

M&S RESEARCH HUB

Applied Econometrics

A program for training in Econometric Theory.

Progmetrics

A program for training in practical Econometrics using R and Python.

Introductory Machine Learning Theory and Practice

Intensive training on the fundamentals of Machine Learning for econometric modeling and data analysis using Julia.

Bayesian Inference for Data Science and Research

Introductory training for Bayesian inference theory and applications to statistical inference and regression analysis.

Theoretical Foundations of CGE Modelling

Training for Computable General Equilibrium models with GAMS.

Recommended course by the GAMS Institute.

Bayesian SVAR and Regime Switching Models Using R and STATA

Special training for the theory and practice of Structural Vector Autoregressions, Bayesian Inference, and Regime Switching Models with R and Stata.

Positions Held

2020/03-Present | Chief Statistician, DATSTAT Consulting

Balibago, Angeles, Philippines

2020/11–2022/02 | Academic Council, M&S Research Hub

Kassel, Germany

E-mail: ong@ms-researchhub.com

2019/08–Present | Data Analyst and Software Developpr, ACOng Consulting Inc

Makati, Philippines

Software Development

2021/09 | PanelKalmanFilter

Developed a Python Package for Kalman Filtering of Panel Data.

FORMATION

2025/09 | Master of Science in Mathematics (in-progress)

Open University, United Kingdom

2019/12 | Bachelor of Science in Applied Economics, Major in Industrial Economics

De La Salle University, Philippines

Thesis: "Developing a Provincial Destination Choice Model of the Philippines"

Advisor: Lawrence B. Dacuycuy

cGPA: 3.193/4.0

Languages

English: Mother Tongue

TAGALOG: Fluent KAPAMPANGAN: Intermediate

Latin: Ecclesiastical Usage

Programming Languages

Intermediate: Python, R, Julia, C#, LATEX, HTML, CSS Software Packages: Statsmodels, PYMC3, Sckit-Learn, Theano

Operating Systems Used: Ubuntu, Manjaro, ArtixLinux Other Software Used: SageMath, Stata, GAMS, OnlyOffice

Superiori Solomaro Oscar Sugeriami, Suara, Grane, Gring

Interests and Activities

Concentratios: Mathematics, Statistics, Economics

Main Fields: Probability Theory, Stochastic Processes, Regression Analysis, Transportation

Research, Decision Theory

Hobbies: Aristotelian Philosophy, Medieval Social and Economic History

YouTube Channel: ViatorInTerra
