Consultancy Work

WIP	Intelligent Transportation System Consulting
	Gave consulting, traffic study, and seminar for traffic and transport economics in a city with more
WID	than one million population in the Philippines.
WIP	Vendor Quality Predictive Modeling
	Estimated a machine learning model to assess vendor and distributor quality based on geographic and historical factors.
2022/08	Medical Device Equivalence Testing
	Gave statistical consulting on sample size estimation for novel medical device equivalence testing.
2022/06–09	Degree Centrality and Prestige Social Network Analysis
	Gave consulting on study design, estimated degree centrality and degree prestige, and performed statistical modeling using these factors.
2022/05-08	Sustainability Reporting and Corporate Financial Performance
2022,00 00	Performed hierarchical model analysis on sustainability indicators' impact on corporate financial per-
	formance with random slopes and intercepts.
2022 / 05	Dividend Payout Statistical Modeling
	Performed panel data analysis on factors affecting dividend payout policies among companies in ASEAN, comparing pooling, fixed effects, and random effects models. Also performed panel variable
	coefficient modelling for each country.
2021/11	Population and Chattel Slavery Prevalence
	Gave statistical consulting and performed analysis of population impact on chattel slavery prevelance,
2021/10	along with temporal-spatial effects. Illiquid Assets Pricing Model
2021/10	Implemented a Geometric Brownian Motion model in Python that estimated illiquid asset volatility
	and correlation with liquid asset, then performed price simulation using estimated results. Model
	came from Ang, Papanikolaou, and Westerfield (2014), and required applying Ito's Lemma to obtain a formula for use with Monte Carlo Integration. Said asset was cryptocurrency with token lockups,
	requiring illiquid asset analysis. Returns distribution also had fat-tailedness, requiring use of Lapla-
0001/10	cian Distribution in Monte Carlo. Model obtained 97% accuracy in backtesting.
2021/10	Forecasting Weekly Sales Volumes Transactional Data
	Implemented a Multilayer Perceptron for forecasting product sales volumes using transactional cashier data, and performed correlation analysis for first-differenced sales and pricing data. Dis-
	covered that sales for different product groups would rise by more than 180% for all groups but one,
2021/09	both target countries, and one target channel, and that two goods violated the Law of Demand. Prey Processing Bout Longitudinal Analysis
2021/03	Performed longitudinal data analysis on shark prey-processing behavior using standard econometric
	tools for time series and panel data.
2021/08	State Space Model using Kalman Filter for Macroeconomic Forecasting
	Performed a novel implementation for Kalman filter for credit and macroeconomic data using Python. This implementation was required for analysis of panel data with exogenous control variables with
	Kalman filtering.
2021/07	Bayesian Distance Clustering in R
	Implemented a Bayesian Distance Clustering algorithm in R. This implementation required novel code for Hamiltonian Monte Carlo with tensor objects.
2021/06	Traffic forecasting in Software Defined Networking using Deep Learning
2021,00	Performed classification analysis to forecast traffic flowing to Network Protocols.
2021/05	Classification Model for Shark Behavior
	Performed classification modeling on longitudinal data for shark behavior, with corrections for auto-
2021/04	correlation and multicollinearity. Uncorrelated Capital Asset Pricing Estimation for Multiasset Portfolio
2021/04	Estimated a Capital Asset Pricing Model for a panel of assets with uncorrelated alpha and beta.
2020/10	Cafe Aghora Sales Consultancy
-, -	Gave consultation for a data science team which analyzed optimal days for sales from Cafe Aghora in
0000/10	Bacolod City.
2020 / 10	Sta Rita Orphanage Data Engineering
	Gave consultation for a data science team which performed data engineering for Sta Rita Orphanage in Parañaque City.

2020/07	Alabel Municipal Hall Feasibility Study
	Prepared a feasibility study on the new municipal hall of Alabel, Sarangani.
2020/05	Outlook on Feeds and Grain Market
	Prepared an outlook analysis on the domestic markets for feeds and grains.
2020/01	Hotel Feasibility Study
	Estimated projected profits using quantitative methods on visitor, revenue, and geospatial data.
2020/01	Employee Turnover Analysis
9010/11	Crafted a survey to record key variables and performed statistical analysis to determine which variables affected the probability of turnover. Firm Profitability Analysis
2019/11	, , , , , , , , , , , , , , , , , , , ,
	Obtained company time-series data on employee productivity and performed market research to determine their effects on the company's profits.

WORKING PAPERS

Empirical

2022 / 02	Expansionary Credit, Easy Money, and Boom-bust Cycles, 1868-1970
MSR Working Paper Series	Analyzed long-run and causal effects of expansionary credit on American business cycles.
2021/05	Developing a Provincial Destination Choice Model of the Philippines
MSR Working Paper Series	Developed a model assigning weights to factors affecting domestic traveller choice of provincial destination in the Philippines.
2021/05	Historical Climate Factors and Rice Prices in the Philippines
MSR Working Paper Series	A paper analyzing how rice prices in the Philippines have responded to historical climate factors.

CASE STUDIES

TRANSPORTATION

2019/03	Route Assignment for Travel between Metro Manila Central Business Districts
	Determined optimal route assignments for travelers between Makati, Ortigas, and Bonifacio Global
	City using linear programming methods.
2018/12	Mode Choice Analysis of New York City
	Undertook mode choice analysis of passenger behavior in New York City using 2017 data.
2018/08	Estimation of the Lane–Mile Elasticity of Metro Manila Traffic
	Estimated the magnitude of effect of road size and expansions on traffic in Metro Manila in the Philippines using linear regression methods.

Miscellaneous

 $2019/03 \mid$ Is the Filipino Worker Ready for Industry 4.0? An Empirical Analysis

Performed classification analysis of factors predisposing the Filipino labor market to choices of occupation.

Courses Taught

M&S RESEARCH HUB

 $Applied\ Econometrics$

A program for training in Econometric Theory.

Progmetrics

A program for training in practical Econometrics using \boldsymbol{R} and Python.

Introductory Machine Learning Theory and Practice

Intensive training on the fundamentals of Machine Learning for econometric modeling and data analysis using Julia.

Bayesian Inference for Data Science and Research

Introductory training for Bayesian inference theory and applications to statistical inference and regression analysis.

Theoretical Foundations of CGE Modelling

Training for Computable General Equilibrium models with GAMS.

Recommended course by the GAMS Institute.

Bayesian SVAR and Regime Switching Models Using R and Stata

Special training for the theory and practice of Structural Vector Autoregressions, Bayesian Inference, and Regime Switching Models with R and Stata.

Positions Held

2020/03-Present Chief Statistician, DATSTAT Consulting

Balibago, Angeles, Philippines

Academic Council, M&S Research Hub 2020/11-2022/02

Kassel, Germany

Chief Analytics Officer, ACOng Consulting Inc 2019/08-Present

Makati, Philippines

Software Development

WIPProject Management and Monitoring Pipeline Software (PMMPS)

Built a client-server database application that facilitates project management and monitoring for

consultancy firms.

2021/11 MultiDistBrownianMotion

Developed a Python Package for Brownian Motion Simulations for Liquid and Illiquid Financial As-

sets, with options for non-Normal Probability Distributions.

2021/09 Panel Kalman Filter

Developed a Python Package for Kalman Filtering of Panel Data.

FORMATION

2025/09 Master of Science in Mathematics (in-progress)

Open University, United Kingdom

Bachelor of Science in Applied Economics, Major in Industrial Economics 2019/12

De La Salle University, Philippines

Thesis: "Developing a Provincial Destination Choice Model of the Philippines"

Advisor: Lawrence B. Dacuycuy

cGPA: 3.193/4.0

Languages

Mother Tongue English:

Tagalog: Fluent Kapampangan: Fluent

Latin: Ecclesiastical Usage

Programming Languages

Python, R, Julia, C#, LATEX, HTML, CSS Intermediate: Software Packages: Statsmodels, PYMC3, Sckit-Learn, Theano

Operating Systems Used: Ubuntu, Manjaro, ArtixLinux

Other Software Used: SageMath, Stata, GAMS, OnlyOffice

Interests and Activities

Concentratios: Mathematics, Statistics, Economics

Probability Theory, Stochastic Processes, Regression Analysis, Transportation Research, Decision Theory
Aristotelian Philosophy, Medieval Social and Economic History Main Fields:

Hobbies:

YouTube Channel: VIATORINTERRA
